BACKGROUND INFORMATION

BACKGROUND

Vermeer UCITS ICAV (the "ICAV") is an open-ended umbrella type Irish Collective Asset-management Vehicle, registered on 10 May 2016 with registration number C154687. The ICAV is an umbrella fund with variable capital and segregated liability between sub-funds, authorised by the Central Bank of Ireland as an investment company pursuant to the UCITS Regulations. The sub-funds of the ICAV comprise one or more Classes of Shares. Each Class of Share representing interests in a fund comprising a distinct portfolio of investments that are invested in accordance with the investment objectives and policies applicable to such sub-fund.

INVESTMENT OBJECTIVE

A sub-fund of the ICAV may have different investment objectives and invest in different types of investment instruments. A sub-fund will invest in accordance with the investment objectives and policies applicable to such sub-fund as specified in the relevant Supplement to the Prospectus.

The present Sub-Fund of the ICAV is:

Vermeer Global Fund

Vermeer Global Fund (the "Sub-Fund") commenced operations on 5 December 2016.

The Sub-Fund's objective is to generate long-term capital growth by investing primarily in a diversified portfolio of exchange listed global equities that have capital and dividend growth potentials. The Sub-Fund may also invest in Financial Derivative Instruments ("FDIs").

MINIMUM INVESTMENT

Below is the minimum initial subscription and minimum holding of each class of the Sub-Fund:

Class	Currency	Distribution Type	Minimum Initial Subscription and Minimum Holding
Class A	Sterling	Accumulating	£3 million
Class A1	US Dollar	Accumulating	\$5 million
Class A2	Sterling	Accumulating	£20 million
Class A3	Sterling	Distributing	£20 million
Class B	Sterling	Accumulating	£5,000
Class B1	US Dollar	Accumulating	\$7,500
Class C	Sterling	Distributing	£5,000
Class D	Euro	Accumulating	€100
Class X*	Sterling	Accumulating	£100
Class X1*	Sterling	Distributing	£100

* Subscriptions for Class X Shares and Class X1 Shares will only be accepted from investors who have entered into a separate agreement with the Vermeer Investment Management Limited (the "Investment Manager") providing for the management of the investors' assets on a discretionary basis and payment of an investment management fee under the terms of such agreement.

SUBSCRIPTIONS & REDEMPTIONS

The opening offer period for Share Classes A, A1, A2, A3, B, B1, C, D, X and X1 shares were made at an Initial Offer Price of \$100 for those Share Classes denominated in US Dollars, £100 for those Share Classes denominated in Sterling and €100 for those Share Classes denominated in Euro.

Following the Initial Offer year, Shares in Classes A, A1, A2, A3, B, B1, C, D, X and X1 are available at the Net Asset Value per Share of each Class.

Requests for the redemption of Shares signed by the Shareholders are sent to Apex Fund Services (Ireland) Limited (the "Administrator") in a prescribed form. Requests for redemption received prior to the Dealing Deadline for any Business Day or such other Business Days as the Directors determine ("Dealing Day") are processed on that Dealing Day. Any requests for redemption received after the Dealing Deadline for a Dealing Day are processed on the next Dealing Day.

PRICES OF CLASSES OF SHARES

In accordance with the provisions of the ICAV's Prospectus, the prices for buying and selling of the Classes of Shares of the Sub-Fund are calculated by reference to the Net Asset Value per Share. The Net Asset Value of the active Share of Classes A, A3, B, B1, C, X and X1 are published on every Dealing Day.

INVESTMENT MANAGER'S REPORT - VERMEER GLOBAL FUND

Vermeer UCITS ICAV – Investment Manager's Report – Q2 2023

5th July 2023

Global stock markets exhibited considerable strength in the first half of 2023 rising by 9.5% in Sterling terms with the Vermeer Global Fund returning 10.4% over the period, outperforming the market by around 1%.

US equities rose by just under 17% in local currency over the first half, defying many of the bearish expectations from investors who had anticipated a poor start to the year. The very strong performance of technology stocks dominated the market, driving the Nasdaq to gain over 32%. Shares in Apple, Amazon and Microsoft all rose by more than 40%, with shares in Meta doubling but these were all dwarfed by the performance of Nvidia, which increased 190% and became the latest company to exceed a market capitalisation of one trillion dollars. At the end of June Apple also crossed the three trillion dollar valuation level, greater than the entirety of the value of the FTSE and taking its multiple to over 30x earnings and leading us to review our current position. In June, the breadth of the market's performance widened out somewhat as bank stocks rebounded from a tough start to the year and cyclical stocks like Caterpillar enjoyed a strong rebound, rising 20% on the month to be modestly higher for the year.

Nvidia's performance was generated by the explosion in investor interest in the artificial intelligence theme, which emerged early in the year and has caught investors' imaginations. Al is already driving significant revenue growth at Nvidia and led to a massive beat on revenue and profit expectations for the next quarter and year ahead as demand for its GPU chips exploded. Other companies like Microsoft and Oracle are also seeing an early benefit to their business models and this is helping drive revenue growth to accelerate faster than had been previously expected. In recent analyst meetings, Microsoft's management noted that Al could be the fastest business unit to generate \$10billion in revenue in the company's history.

The US economy has proved resilient in the first half of 2023 with GDP rising 2% in the quarter following revisions at the end of the month and a similar level of growth seems likely for the second quarter. Despite continued increases in interest rates by the Federal Reserve, consumer spending has held up reasonably well, helped by a very robust labour market and wage growth that has helped stave off the worst vagaries of stubborn inflation. Higher levels of inflation have been a notable feature for the US and many parts of the world in 2023. Indeed, expectations that inflation will remain stickier for longer has led to a re-evaluation of interest rate expectations, which are no longer forecast to fall this year. The Federal Reserve acknowledges that it has already moved rates up a long way over the last year and actually paused hiking in June. However, the Fed continue to hold rates at this level and see what develops rather than risk pushing them up too far, creating a recession and then having to bring rates down very quickly.

Japanese equities performed well over the first half, rising to their highest level since 1990. However, unfortunately for Sterling based investors, a lot of this move has been wiped out by the fall in the Yen which continues to be very weak as the Bank of Japan maintains its very low interest rate policy, having hinted at the end of 2022 that its yield curve control strategy might be coming to an end. We are retaining our overweight stance to the Japanese market and remain really positive about the improving corporate governance theme, which should continue to drive increased returns to shareholders at the same time as the economy performs relatively strongly and recovers from the COVID lockdown.

China has had a more difficult six months as emerging from a long period of lockdown has not proved as straightforward as many investors had hoped. Chinese travel has not picked up as quickly as expected and the property market remains very challenging. The Chinese government is beginning to increase support measures for the housing market but understandably appears reluctant to create a return to excessive speculation in the sector.

During June we added a new position in the Fund via the purchase of shares in Uber, the ride hailing and delivery business. Uber has gone from strength to strength in recent years, establishing a very strong financial platform for future success as it grows both new and existing business opportunities. While Uber shares have already performed well this year, we believe there is a long runway for the company to continue to grow and exceed its target of \$5billion of EBITDA by 2024. Uber reported first quarter revenues of \$8.8billion, up 29% with gross bookings growth of over 20% and record free cash flow of over \$500million. CEO Dara Khosrowshahi commented "looking ahead, we are focused on extending our product, scale and platform advantages to sustain market leading top and bottom line growth beyond 2023."

Nike results at the end of the month were resilient and highlighted the continued strength of the athletic wear market in a challenging retail environment. It has been a very difficult six months for many stocks in the retail space, despite consumer spending proving fairly resilient and we have refocused our retail exposure and exited our remaining position in Target. Nike's franchise in China has rebounded strongly from the impact of the COVID lockdowns and continues to exhibit double digit growth, even as the country's emergence from lockdown has proved far more difficult than many observers expected. Nike shares have underperformed the market this year, falling 5% and while the competitive environment is intensifying, we remain confident that the company can grow strongly as the market for athletic and leisure wear products continues to grow and Nike remains at the forefront of product innovation, especially in the womenswear area, which we believe will continue to increase in importance for the company.

INVESTMENT MANAGER'S REPORT - VERMEER GLOBAL FUND (CONTINUED)

Vermeer UCITS ICAV – Investment Manager's Report – Q2 2023 (continued)

Accenture, the world's leading digital consultant produced results in June that were broadly in line with expectations and while there is continued weakness in some areas of the business that is being impacted by the slowing economy, overall bookings growth remains solid. Accenture shares have risen by just over 16% this year, in line with the US market and have recovered from a low of \$242 to over \$300 in recent weeks. This move has come as investors have realised that Accenture is likely to have a pivotal role to play in the adoption of AI products and the utilisation of the cloud infrastructure that many companies have invested in and are now seeking to maximise value from. We believe Accenture has an excellent management team and strikes a good balance between reinvesting strong cash flows in future growth of the business and returning excess capital to shareholders via dividends and share buybacks.

In June we had a positive management meeting with Verisk Analytics, the data analytics business that largely serves the insurance industry and was added to the portfolio last year. Management is confident in delivering 6-8% revenue growth on a consistent basis, although this may actually prove to be a little conservative. The market is rewarding the company's consistent delivery and at the meeting, management noted that even in 2009 and 2020, which were very difficult years for the US economy, the company still had revenue growth of 5%. While Verisk has a well established business in the US, it is starting to grow internationally and the addressable market is huge, and it will likely make small acquisitions to augment this growth opportunity. After strong performance this year, the valuation is now fairly full, but we like the repeat revenue, strong cash flow and capital allocation policy that the company is delivering.

While we have retained a fairly high cash weighting for most of the first half, we are reasonably comfortable with our current position as we see risks and rewards in equal measure in the next few months. We believe interest rates are going to remain higher for longer and that liquidity, which has been such a driver for the market, is likely to continue to be withdrawn by central banks. We also anticipate that the US economy will remain resilient helped by the investment that is being driven by a combination of the Chips Act, Infrastructure Bill, and the Inflation Reduction Act that all create real jobs and a multiplier effect for the economy. This should help offset a slowdown in other areas that are impacted by higher interest rates. We are continuing to look for new ideas to augment our portfolio and are also looking to add to existing positions where we see opportunities.

Tim Gregory Senior Fund Manager Vermeer Investment Management

NOTES TO THE CONDENSED FINANCIAL STATEMENTS

1. Background Information

Vermeer UCITS ICAV (or the "ICAV") is an open-ended umbrella type Irish Collective Asset-management Vehicle, registered on 10 May 2016 with registration number C154687. The ICAV is an umbrella fund with variable capital and segregated liability between sub-funds, authorised by the Central Bank of Ireland as an investment company pursuant to the UCITS Regulations. The sub-funds of the ICAV can comprise one or more Classes of Shares. Each Class of Share representing interests in a sub-fund comprises a distinct portfolio of investments that are invested in accordance with the investment objectives and policies applicable to such sub-fund.

The initial Sub-Fund of the ICAV is Vermeer Global Fund (or the "Sub-Fund") commenced operations on 5 December 2016 with share classes A, A3, B, B1, C, X and X1.

The ICAV's Investment Manager is Vermeer Investment Management Limited (the "Investment Manager"). The Investment Manager was incorporated in England as a limited liability partnership on 11 June 2014 with registered number 09081916. The Investment Manager is regulated and authorised by the Financial Conduct Authority in the United Kingdom ("FCA"). Link Fund Manager Solutions (Ireland) Limited (the "Manager") was appointed Manager of the ICAV.

Investment objective and strategy

The Sub-Fund's investment objective is to generate long-term capital growth by investing primarily in a diversified portfolio of exchange listed global equities that have attractive growth potentials.

2. Accounting policies

2.1 Basis of preparation and statement of compliance

The interim report and unaudited condensed financial statements for the reporting period ended 30 June 2023 have been prepared in accordance with International Financial Reporting Standards ("IFRS") and IFRS Interpretations Committee as adopted by the EU and those parts of the ICAV Act applicable to ICAVs reporting under IFRS as adopted by the European Union and the European Communities Undertakings for Collective Investment in Transferable Securities Regulations 2011, as amended (the "UCITS Regulations"), and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) UCITS Regulations 2019 (the "Central Bank UCITS Regulations").

The preparation of financial statements in conformity with IFRS as adopted by the EU requires the Directors to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires the disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the financial period. Although these estimates are based on Directors best knowledge of current events and actions, actual results may ultimately differ from those estimates.

The comparative figures presented in the Condensed Statement of Financial Position relate to the previous financial year ended 31 December 2022. The comparative figures included in the Condensed Statement of Comprehensive Income, Condensed Statement of Changes in Net Assets Attributable to Holders of Participating Shares and Condensed Statement of Cash Flows relate to financial period from 1 January 2023 to 30 June 2023.

The financial statements have been prepared on the going concern basis and under the historical cost convention as modified by the revaluation of financial assets and financial liabilities at fair value through the Statement of Comprehensive Income.

2.2 Significant accounting judgements and estimates

The preparation of financial statements in conformity with IFRS as adopted by the EU requires the use of certain critical accounting estimates. It also requires the Directors to exercise their judgement in the process of applying the ICAV's accounting policies. The Directors believe that the estimates utilised in preparing these financial statements are reasonable and prudent. Actual results could differ from these estimates.

The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in the accounting policies below.

2.3 Summary of significant accounting policies

The principal accounting policies applied in the preparation of the ICAV's unaudited condensed interim financial statements have not changed in the current financial period from the policies as disclosed in the annual financial statements for the financial year ended 31 December 2022.

3. Share Capital

The share capital of the ICAV is ≤ 2.00 divided into 2 subscriber shares of ≤ 1.00 each and 5,000,000,000 Shares of no par value initially designated as unclassified shares each having the rights appearing in the Instrument of Incorporation. The minimum issued share capital of the ICAV is 2 subscriber shares of ≤ 1.00 each and 5,000,000,000 Shares of no par value. Subscriber shares do not entitle the holders thereof to any dividend and on a winding up entitle the holders thereof to receive the amount paid up thereon but do not otherwise entitle them to participate in the assets of the ICAV.

The Directors have the power to allot Shares in the capital of the ICAV on such terms and in such manner as they may think fit in accordance with the Instrument of Incorporation, the UCITS Regulations, the requirements of the Central Bank and the ICAV Act. Without prejudice to any special rights previously conferred on the holders of any existing Shares or Class, any Share in the ICAV may be issued with such preferred, deferred or other rights or restrictions, whether in regard to dividends, voting, return of capital or otherwise, as the Directors may from time to time determine.

The Shares shall be divided into such sub-funds and may be further divided into such Classes as the Directors may from time to time determine and such sub-funds and Classes shall have such names or designations as the Directors may from time to time determine. Where the Directors determine to divide the Shares into sub-funds, each sub-fund shall have segregated liability.

On or before the allotment of any Shares, the Directors shall determine the Class or Sub-Fund in which such Shares are designated. All monies payable in respect of a Share (including without limitation, the subscription and redemption monies and dividends in respect thereof) shall be paid in the currency in which the Share is designated or in such other currency or currencies as the Directors may determine either generally or in relation to a particular sub-fund or Class.

There was no currency hedging on any share classes during the period.

The following table details the subscription and redemption activity during the financial period ended 30 June 2023 and year ended 31 December 2022 for the Sub-Fund:

	30 June 2023	31 December 2022

8. Net Asset Value per Share

The Net Asset Value of each Class of Shares within the ICAV is calculated by the Administrator as at the Valuation Point on or with respect to each Dealing Day in accordance with the Instrument of Incorporation. The Net Asset Value of the ICAV is equal to the Net Asset Value of all the sub-funds. The Net Asset Value attributable to a Class is determined as at the Valuation Point for the relevant Dealing Day by calculating that portion of the Net Asset Value of the ICAV attributable to the relevant Class subject to adjustment to take account of assets and/or liabilities attributable to that Class. The Net Asset Value of the ICAV is expressed in the functional currency of the ICAV and in such other currency as the Directors may determine either generally or in relation to a particular Class.

The Net Asset Value per Share is calculated as at the Valuation Point on or with respect to each Dealing Day by dividing the Net Asset Value of the relevant sub-fund or attributable to a Class by the total number of Shares in issue or deemed to be in issue in such sub-fund or Class at the relevant point of time by reference to which the assets of a sub-fund will be valued for the purposes of calculating the Net Asset Value per Share of the sub-fund as specified in the relevant Supplement ("Valuation Point") and rounding the resulting total to 2 decimal places.

9. Capital management

The participating shares are considered to be the capital of the Sub-Fund. Any profits or gains would increase the capital of the Sub-Fund. Similarly losses reduce the capital of the Sub-Fund. New investment subscriptions would increase the capital of the Sub-Fund. Redemptions would result in a decrease to the capital of the Sub-Fund.

Significant increase to the capital of the Sub-Fund would result in an increase in the investment portfolio. Significant decreases to the capital of the Sub-Fund would result in the sale of investments held by the Sub-Fund. A forced sale of investments may not realise the fair value that is shown in the Statement of Financial Position.

The Sub-Fund's objectives for managing capital are:

- To invest the capital in investments meeting the description, risk exposure and expected return indicated in the ICAV Prospectus and Sub-Fund Supplement.
- To achieve returns while safeguarding capital by investing in a diversified portfolio of mainly listed equity securities by using various investment strategies.
- To utilise foreign exchange contracts, including spot and forward contracts as indicated in the ICAV Prospectus and Sub-Fund Supplement.
- To maintain sufficient liquidity to meet the day to day expenses of the Sub-Fund, and to meet redemption requests as they arise.

The risk management policies and processes employed by the Sub-Fund in managing its capital is disclosed in Note 19 'Financial instruments and risk management'.

10. Related party disclosures

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions. All related parties transactions are conducted at arm's length. As at 30 June 2023 and 31 December 2022, James Rowsell and Timothy Gregory were directors of the ICAV and Vermeer Investment Management Limited, respectively. James Rowsell and Timothy Gregory hold shares in the Sub-Fund at 30 June 2023 and 31 December 2022.

Investment Manager – Vermeer Investment Management Limited

Under the terms of the Management Agreement, Vermeer Investment Management Limited is entitled to the following fees, collectively referred to as an 'Investment Management Fee':

Investment management fees

The ICAV will pay the Investment Manager an investment management fee, out of the assets of the Sub-Fund, of up to 0.45% per annum of the Net Asset Value of Class A2 and Class A3, 0.75% per annum of the Net Asset Value of Class B1, Class B1, Class C and Class D accruing daily and payable monthly in arrears on the dealing day of each month. No investment management fee charged for Class X and Class X1.

For the financial period ended 30 June 2023 and 30 June 2022, the investment management fees incurred were:

	For the financial period from	For the financial period from
	1 January 2023 to	1 January 2022 to
	30 June 2023	30 June 2022
	GBP	GBP
Investment management fees incurred	125,515	112,584

As at 30 June 2023 and 31 December 2022, the Investment management fees payable was:

	As at	As at
	30 June 2023	31 December 2022
	GBP	GBP
Investment management fees payable	64,536	58,549

The Investment Manager may from time to time and at its sole discretion and out of its own resources decide to pay rebates and/or retrocessions out of the investment management fee and/or the performance fee that it receives.

The fee cap is capped at 1% of the Sub-Fund operating expenses and is limited to the fees paid to the Investment Manager, the Depositary, the Directors, the Auditor, the Administrator and any set up costs of the Sub-Fund. The fee cap may not be increased without the prior approval of shareholders.

For the financial period ended 30 June 2023, the ICAV incurred rebate income from Investment Manager GBP 46,542 (30 June 2022: GBP 63,134), out of which GBP 46,542 (31 December 2022: GBP 115,350) were receivable at 30 June 2023.

Manager's Fees

The Sub-Fund has appointed Link Fund Manager Solutions (Ireland) Limited as Manager of the Sub-Fund. The Manager shall be entitled to receive out of the assets of the Sub-Fund an annual fee of up to 0.03% of the Sub-Fund's Net Asset Value as per the previous Business Day, subject to a minimum fee of €3,000 per month, accrued on each Dealing Day based on the Net Asset Value of the Sub-Fund as per the previous Business Day and payable monthly in arrears (plus VAT, if any).

During the financial period ended 30 June 2023 and 30 June 2022, the manager's fees incurred were:

	GBP	GBP
Manager's fees payable	3,448	3,621

10. Related party disclosures (Continued)

Directors' fees

The Prospectus authorise that the Directors be entitled to a fee for remuneration of their services at a rate to be determined from time to time by the Directors. The Directors have determined that the maximum fee per Director shall not exceed EUR 15,000 per annum (excluding VAT, if any). James Rowsell and Timothy Gregory have waived their entitlement to directorship fees and accordingly, will not be paid a fee for their appointment as Directors to the ICAV.

All Directors will be entitled to reimbursement by the ICAV of expenses properly incurred in connection with the business of the ICAV or the discharge of their duties.

During the financial period ended 30 June 2023 and 30 June 2022, the Directors' fees incurred were:

For the f	inancial	For the financial
peri	od from	period from

	GBP	GBP
Directors' fees payable	6,766	9,520

11. Administration fees

The Administrator is entitled to receive out of the assets of each Sub-Fund, an annual fee, accrued daily and payable monthly in arrears. The administration fees are calculated based on the Net Asset Value of the Sub-Fund ranging from 0.05% to a maximum fee of 0.1% of the Sub-Fund's Net Asset Value and is subject to a minimum fee of EUR 4,000 per month.

The Administrator will also be entitled to recover out-of-pocket expenses by way of a charge of 10% of the monthly administration fee.

Financial Statement Preparation

An annual fee of EUR 3,500 will be charged for the preparation of the financial statements for the Sub-Fund.

Corporate Secretarial Services

The Administrator will provide corporate secretarial services to the Sub-Fund at a fee of EUR 4,000 per annum. This fee is payable in advance.

Registered Office Services

The maintenance of the registered of the Sub-Fund at the offices of the Administrator including the display, at all times, of the name of the ICAV in satisfaction of their obligation under the Law will be provided to the ICAV at an annual fee of EUR 2,000 per annum.

During the financial period ended 30 June 2023 and 30 June 2022, the administration fees incurred were:

For the financial period from	For the financial period from
1 January 2023 to	1 January 2022 to

6,796	5,949
-	30 June 2023 GBP

12. Distributions

As at 30 June 2023 and 2022, there were no distribution amount payable to shareholders.

13. Depositary – Societe Generale S.A. (Dublin Branch)

Under the terms of the Depositary Agreement dated 11 November 2016, Société Générale S.A. (Dublin Branch) is entitled to the following fees. The Depositary is entitled to receive a maximum trustee fee of 0.025% per annum of the Net Asset Value of the Sub-Fund, accrued at each Valuation Point and is payable monthly in arrears. The Sub-Fund also pay custody fees ranging from 0.02% to a maximum of 0.04% calculated by reference to the value of the assets held in custody by the Depositary. The Depositary's fees are accrued at each Valuation Point, payable monthly in arrears, and subject to a minimum charge of \pounds 2,500 per month. The Depositary is entitled to a cash flow monitoring fee of \pounds 2,000 per annum for the Sub-Fund and to charge sub-custody fees which shall be charged at normal commercial rates. The Depositary is also entitled to recover properly vouched out-of-pocket expenses out of the assets of the Sub-Fund (plus VAT thereon, if any), which shall include expenses of any subcustodian appointed by it.

During the financial period ended 30 June 2023 and 30 June 2022, the depositary fees incurred were:

	For the financial period from	For the financial period from
	1 January 2023 to	1 January 2022 to
	30 June 2023	30 June 2022
	GBP	GBP
Depositary fees incurred	32,776	33,503

As at 30 June 2023 and 31 December 2022, the depositary fees payable were:

	As at	As at
	30 June 2023	31 December 2022
	GBP	GBP
Depositary fees payable	15,590	16,814

14. Commitments and contingencies

There were no commitments or contingencies at the end of the financial period 30 June 2023 and year 31 December 2022.

15. Taxation

Under current law and practice, the ICAV qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis, it is not chargeable to Irish tax on its income or gains.

However, Irish tax may arise on the happening of a "chargeable event". A chargeable event includes any distribution payments to shareholders, any encashment, redemption, cancellation or transfer of shares and the holding of shares at the end of each eight-year period beginning with the acquisition of such shares.

No Irish tax will arise on the Sub-Fund in respect of chargeable events in respect of:

(a) a shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the ICAV or the ICAV has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations; and (b) certain exempted Irish tax resident shareholders who have provided the Sub-Eund with the processary signed statutory declarations

(b) certain exempted Irish tax resident shareholders who have provided the Sub-Fund with the necessary signed statutory declarations.

Dividends, interest and capital gains (if any) received on investments made by the Sub-Fund may be subject to taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Sub-Fund or its shareholders.

16. Soft commissions

There were no soft commission arrangements affecting the ICAV during the financial period. The implementation of Directive 2014/65/EU on markets in financial instruments ("MiFID II") resulted in the "unbundling" of research costs from execution costs within broker commissions. MiFID II allowed for the establishment of a Research Payment Account, specific research expense, charged to the Sub-Fund and controlled by the Investment Manager, for the procurement of investment research. The Investment Manager decided, in the interests of the ICAV's shareholders, not to request the establishment of a Research Payment Account.

17. Audit fees

During the financial period ended 30 June 2023 and 30 June 2022, the following audit fees were incurred (excluding VAT):

1 January 2	d from 2023 to e 2023	For the financial period from 1 January 2022 to 30 June 2022
	GBP	GBP
Statutory audit (excluding VAT)	4,370	5,198

There were no other amount paid in respect of other assurance services, tax advisory services or other non-audit services.

18. Connected person transactions

The Directors are satisfied that: (i) there are arrangements in place, to ensure that the obligations set out in Regulation 41(1) of the Central Bank UCITS Regulations are applied to all transactions with connected persons; and (ii) transactions with connected parties entered into during the period complied with the obligations set out in that regulation.

Note 10 to these financial statements details related party transactions during the period. Details of fees paid to related parties and certain connected persons are also set out in note 10.

19. Financial instruments and risk management

The ICAV's objective is to achieve superior long-term capital appreciation on behalf of the Sub-Fund.

As an open ended self-managed investment ICAV, the Sub-Fund holds a portfolio of financial assets in pursuit of its investment objectives. All of the ICAV's financial instruments comprise listed equity securities, which are held to achieve its investment objective as well as debtors and creditors that arise from its operations. From time to time, the Sub-Fund may make use of borrowings to meet redemptions. Such borrowing is limited to the Sub-Fund's Net Asset Value and for short term/temporary purposes only.

The primary responsibility of reviewing and monitoring of risk in the ICAV rests with the Directors but as part of its strategy, the Directors have appointed the parties listed on page 3.

As part of monitoring risk on the Sub-Fund, global exposures are calculated using the commitment approach.

In the normal course of business, the Sub-Fund is exposed to a variety of financial risks: credit risk, liquidity risk and market risk (including currency risk, interest rate risk, and other price risk). The value of investments of the Sub-Fund's portfolio can fluctuate on a daily basis as a result of changes in interest rates, economic conditions, the market, and company news related to specific securities within the Sub-Fund. The level of risk depends on the Sub-Fund's investment objective and the type of securities it invests in. The risk profile of the Sub-Fund has not substantially changed since the issuance of the annual financial statements.

(i) Fair values of financial instruments

The ICAV uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- Level 1: quoted prices in active markets for identical assets or liabilities;
- Level 2: those involving inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices); and
- Level 3: those whose inputs for the asset or liability that are not based on observable market data (unobservable inputs).

All the Sub-Fund's financial assets at fair value through profit or loss are traded in active markets and are based on quoted market prices.

At 30 June 2023 and 31 December 2022, all financial investments were held at their estimated fair value based on available market information. For other financial instruments, including cash and cash equivalents, administration fees payable and accounts payable, the carrying amounts are the approximate fair value due to the immediate or short-term nature of these financial instruments.

The following tables overleaf show the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

20. Exchange rates

The foreign exchange rates used in the preparation of the financial statements expressed as GBP are as follows:

Currency	30 June 2023	31 December 2022
Swiss Franc	0.8796	0.8937
Danish Krone	0.1154	0.1190
Euro	0.8593	0.8850
Indian Rupees	0.0096	0.0100
Japanese Yen	0.0055	0.0063
Singapore Dollar	0.5825	0.6165
United States Dollar	0.7872	0.8276
Australian Dollar	0.5250	-

21. Significant Events during the financial period

The collapse of Silicon Valley Bank and Signature Bank in March 2023 in the United States has caused significant volatility within the global financial markets and has questioned the stability of the global banking sector. This has impacted many global banks resulting in the emergency rescue of Credit Suisse by rival Swiss bank UBS. In a global response not seen since the height of the pandemic, the Federal Reserve has joined central banks in Canada, however, Japan, the EU and Switzerland are in a co-ordinated action to enhance market liquidity.

The situation in Ukraine continues to evolve and whilst it has not had a direct impact on the ICAV to date, as the portfolio has no direct exposure to Russian or Ukraine securities, its impact on the global economy may have an indirect impact on the performance of the ICAV.

Also, the international financial and currency markets experienced significant volatility due to global inflationary pressures as a result of the easing of the COVID 19 pandemic restrictions and worldwide disrupted supply chain issues. Central banks responded with tightening monetary policies and increasing national interest rates. The United States Federal Reserve Bank was the first to take the initiative to combat increasing inflation with aggressive tightening and interest rate hikes, this led to the US Dollar significantly increasing against the majority of global major and emerging currencies.

Any related impacts due to these significant events have been reflected in the ICAV's asset valuations as of the reporting date and the Board of Directors, the Manager and the Investment Manager continue to monitor the situation to mitigate any further risks.

Effective 20 April 2023, certain subsidiaries of Link Group, including Link Fund Administrators (Ireland) Limited and Link Fund Manager Solutions (Ireland) Limited, entered into sale agreements with entities within the Waystone Group. The sale is expected to be completed on or around 3 October 2023 and is conditional on various matters, including receipt of regulatory approvals. The impact to the ICAV will be the appointment of Waystone Management Company (IE) Limited as management company to the ICAV.

The Board of Directors, the Manager and the Investment Manager have conducted an exposure assessment on the ICAV and conclude there are no direct exposures or risks and shall continue to monitor the situation.

There were no other significant events during the financial period.

22. Subsequent Events

Effective 31 July 2023, the Sub-Fund's operating expenses ("Fee Cap") increased by 0.15% so that the revised Fee Cap will be set at 1.15% of the Sub-Fund's NAV, as a result of increasing overall fund costs. This has been approved by the Board of Directors, Link Fund Manager Solutions (Ireland) Limited (the "Manager"), the Central Bank of Ireland and the Fund investors.

There were no other subsequent events after the financial period end.

23. Approval of financial statements

The financial statements were approved by the Directors on 10 August 2023.
